

# Find Vaccine Adverse Events reported by the CDC (VAERS) that Mainstream Media does not want you to know

By the way, **2011 report by Harvard Pilgrim Health Care, Inc. for the U.S. Department of Health and Human Services (HHS) stated that less than one percent of all vaccine adverse events are reported to the government.**

On your Browser go to: <https://www.cdc.gov/vaccinesafety/ensuringsafety/monitoring/vaers/index.html>

Find and select: "VAERS data (without patient information) are publicly available online through a system called **VAERS WONDER**." <https://wonder.cdc.gov/vaers.html>

## How to Access VAERS Data

VAERS data (without patient information) are publicly available online through a system called **VAERS WONDER**.

### [Video: How to Access Data from CDC's VAERS WONDER System](#)

This video demonstrates how to search VAERS data using CDC WONDER. You will also learn about the purpose of VAERS and strengths and limitations of VAERS data.

Watch specific sections of the video:

**Note:** Any use of these data implies consent to abide by the terms of the data use restrictions.

#### The Vaccine Adverse Event Reporting System (VAERS)

The Vaccine Adverse Event Reporting System (VAERS) database contains information on unverified reports of adverse events (illnesses, health problems and/or symptoms) following immunization with US-licensed vaccines. Reports are accepted from anyone and can be submitted electronically at [www.vaers.hhs.gov](http://www.vaers.hhs.gov).

#### Search Current VAERS Data

The information in this database contains reports received from 1990 to the present. Data can be searched by the following: age, event category, gender, manufacturers, onset interval, recovery status, serious/non-serious category, state/territory, symptoms, vaccine, VAERS ID #, year reported, month reported, year vaccinated and month vaccinated. Click the VAERS Data Search button below to begin your data search.

VAERS Data Search

VAERS Report Details\*

\* This allows you to search for details on a specific VAERS report by the VAERS ID number.

### The Vaccine Adverse Event Reporting System (VAERS) Request

Request Form Results Map Chart Report About

Dataset Documentation Other Data Access Data Use Restrictions How to Use WONDER

Save Reset

Make all desired selections and then click any **Send** button one time to send your request.

#### 1. Organize table layout:

Send Help

Group Results By: Symptoms

And By: Vaccine Type

And By: Serious

And By: VAERS ID

And By: None

Optional Measures (Check box to include in results.)

- Adverse Event Description
- Lab Data
- Current Illness
- Adverse Events After Prior Vaccinations
- Medications At Time Of Vaccination
- History/Allergies

Title: \_\_\_\_\_

Notes:

- Data contains VAERS reports processed as of 3/12/2021.
- Must group by VAERS ID when selecting any of the Optional Measures.
- When grouping by VAERS ID, results are initially displayed with Events Reported, Percent, and totals not shown.

Then on 7. Select report complete dates, 8. Select report received dates, 9. Select vaccination dates, 10. Select adverse event onset dates, and 11. Select death dates, place the Dates **From** and **Until** that you want to see. Ej: Dec 2020 to Mar 2021.

At the bottom select "**Send**"

The CDC only gives you 30 minutes before it "Times Out", this is how much they want you to know the TRUTH.

**This is the response you get today 03/25/2021**

**Messages:**

► This request produces 11,297 rows, but 10,000 is the maximum allowed. Simplify this request, or send a series of smaller ones. For example, group results by race but limit each query to a single race. Send a request for each race group and then merge the results. Please contact [user support](#) for further assistance.

11,297 rows represent 1% of possible death cases (<https://thevaccinereaction.org/2020/01/only-one-percent-of-vaccine-reactions-reported-to-vaers/>) so this means that there could be **1,129,700** deaths already between January and March 2021 in the USA alone. If we extrapolate to the World population, the world has 23.76 times the population of the USA. This could represent **26,846,337** Vaccine deaths in the world today.
